## THE WORLD'S MOST VERSATILE COMMERCIAL VEHICLE FOR THE PAST SIX DECADES

Its three wheels have plied the world's roads since the end of the Second World War, carrying all sorts of cargo. Ape represents one of the most significant chapters in the history of urban mobility and commercial transport. A **one of a kind vehicle** which, with its unmistakable silhouette, has become a transport icon. Ape is a part of Italian history, a product of the genius of the aeronautical engineer Corradino D'Ascanio and the far sighted vision of Enrico Piaggio. Light, agile and versatile, it has evolved over the decades without losing its unmistakable physiognomy, from the Ape A, created with the Italian post-war reconstruction in full swing, which accompanied the nation through the economic boom to the futuristic 5-wheeled Ape Pentarò from the 1960s and the Ape Car, the undisputed queen of the 1970s. These were followed by the Ape TM designed in 1982 by Giorgetto Giugiaro and today's versions, such as the Ape Cross, which is dedicated to young users. The Ape's **compact dimensions**, together with a turning circle of just 3.4 m, enable it to easily reach historical city centres, narrow streets and places inaccessible to any other commercial vehicle, without sacrificing a **class beating payload capacity** of up to an incredible 800 Kg! **Reliable and economical**, with a choice of petrol and diesel engines from 50 to 422 cc, the Ape range includes versions with handlebar or wheel steering catering for every possible professional application.

# Ape®

## Ape 50

### APE 50: MORE IN LESS SPACE

Ape 50 is the smallest and most versatile range of commercial vehicles available today. Parking and accessibility are never a problem, even in the tightest city centre streets. It can be driven with a scooter license from just 14 years of age. For its size and fuel economy, its payload capacity is unrivalled (up to 200 Kg or 1.5 m<sup>3</sup>). With its easily accessible platform, the generous space of the van version and the young style of the Cross, Ape 50 offers practically limitless solutions.

## Ape 50

### APE 50 PLATFORM: THE ORIGINAL

Ideal for transporting small payloads in rural and urban areas, this is the best selling Ape in the range. Unbeatable for compactness, manoeuvrability and fuel economy, with a range of over 300 Km on a single tank. Available in long and short platform versions, both of which ideal for a wide variety of applications.

### APE 50 VAN: A SMALL BUT CAPABLE DELIVERY VEHICLE

Ideal for small and frequent deliveries in the city. Manoeuvrable and reliable, nimble in traffic and the perfect solution to the problem of parking, with its ultra-compact dimensions. Capable of carrying up to 170 Kg of cargo, completely protected and covered in its easy to load 1.5 m<sup>3</sup> cargo bay, which makes use of every available inch of space.

### APE 50 CROSS COUNTRY: THE "YOUNG" PICK UP

A fresh and dynamic design with contemporary colours make the Ape 50 Cross Country a trendy proposition. The mini-pick up comes as standard with a comprehensive list of equipment for total safety: roll-bar, front and rear bumpers and large rear view mirrors. Enjoy life to the full with Ape 50 Cross Country, carrying your surfboard or snowboard while listening to your favourite music, as it comes ready wired for a sound system as standard.

## Ape TM

### APE TM, CATERING FOR EVERY NEED

The most widely sold and multipurpose version in the range, the magic wand capable of answering any transport need. Within the compact dimensions hides an impressive payload capacity: in the platform version, Ape TM can carry up to 700 Kg in total reliability, with its choice of fuel efficient diesel and petrol engines. Ape TM can be driven with an A or B class driver's license, and is also available as a chassis version for outfitting with special equipment.

## Ape TM

### TM PLATFORM, GOOD-BYE SPACE PROBLEMS!

The definitive workhorse Ape, offering unparalleled versatility and impressive payload capacity. A choice of extremely fuel efficient diesel and petrol engines make the TM nimble, economic and capable of covering any medium or long range route quickly. Available in short platform, long platform and tipper bed versions, with light alloy dropsides and tailboard with a modern design. On the long platform version, the load bed boasts a usable surface of 2.75 m<sup>2</sup> with a maximum load capacity of over 700 Kg. Ape TM is also available with both handlebar steering, which is ideal for rural use, and wheel steering, for city and extraurban use.

### TM VAN, YOUR LOYAL WORK COMPANION

The perfect Ape for large deliveries, with a large and completely usable cargo bay. This is the ideal solution for carrying relatively large loads in the city, offering complete weather protection for your cargo. 2.5 m<sup>3</sup> of available cargo volume and a load capacity of almost 700 Kg make it an unbeatable proposition.

## Ape Classic

### APE CLASSIC, A DESIGN CLASSIC

A genuine legend on three wheels is back: Ape Classic, an icon of Italian design and style, now available in the exclusive “vintage green” colour. Attractive retro styling complement a vehicle with outstanding technical characteristics: compact dimensions and a load capacity of 700 Kg. Ape Classic comes with a platform with two dropsides and a hinged tailboard to facilitate loading and unloading and is powered by latest generation diesel engines to comply with European environmental regulations. Ape Classic: embodying everything that made the Ape a worldwide legend.
